## SUMMARY

Front-end web developer with a graphic design background, skilled at coding after completing the Skills EdX boot camp and working towards earning my front-end development certificate. Passionate about app development with a focus on mobile-first design. Strong in creativity, teamwork, and taking projects from ideation to execution. Specialized strengths in design and creativity from my graphic design background. Enthusiastic about problem-solving and eager to continue learning and growing.

## TECHNICAL SKILLS

**Technical Languages and Technologies :**

- **HTML**
- **CSS**
- **JavaScript**
- **Jest**
- **JQuery**
- **React**
- **Node**
- **Bootstrap**

## PROJECTS

**GlobeGlide** | **https://github.com/foroughgoudarzi/GlobeGlide**
- Developed a destination/holiday planner with integrated POIs, exchange rates, and city recommendations.
- Responsible for header CSS, animation, and overall design.
- Technologies: HTML, Bootstrap, CSS, JavaScript

**README Generator** | **https://github.com/minyyds/README-generator**
- Created a command-line README generator using the Inquirer node package.
- Transformed user responses into a functional README file.

**Track City** | **https://github.com/GroupOneProject/Track-City**
- Contributed to a task organizer application by integrating chart.js for data analysis on a weekly basis.
- Developed a competitive points system to motivate children.
- Technologies: JavaScript, chart.js
- Teamwork was fluid and communication was plentiful. We practiced standups so everyone was clear on work allocation and roadblocks.

## EXPERIENCE

**RAC - Call Center Agent**                 Walsall, UK                 **December 2018 – June 2019**
